

```
//15. write a program to remove duplicate elements in an ArrayList
public class duplicates {

    /**
     * @param args
     */
    public static void main(String[] args) {
        // TODO Auto-generated method stub
        int c [] = {1,2,1,3,2,5};

        for (int i=0; i<c.length; i++){
            for(int j=i+1; j<c.length; j++){
                if (c[i] == c[j]){
                    System.out.println("duplicate number is " +
c[j]);
                }
            }
        }
    }
}
```

Output

duplicate number is 1

duplicate number is 2
